

HERE IS THE CENTER OF GRAVITY IN BUYING

For seven days the ladies of Honolulu have been drawn to this store as the earth draws the apple to the ground after it leaves its stem; it has been the hive of the busy bee and we are pleased. The success of this clearance constrains us to believe the appeal contained in the articles in this particular sale is to your self-interest. The result is that many of the thousands of dollars spent daily in dry goods in Honolulu, get lodgement in this store. Is this to be wondered at? If your mind has for a moment been a bit foggy on the dry goods and lace question it should be cleared after an inspection of the stock. Even the careless eyes cannot fail to see how marvelously cheap, how near to half the 'round-town-prices, are the goods we show.

Some of the articles are wonderfully good, others not so good, and if you know dry goods you will not have to be told which is the most costly. Even the sorts at the least price toss back impressions of what is really good in a garment made of cotton, linen or wool that has been woven into attractive patterns by persons whose life study has been to attain absolute perfection in the lines they weave. You have the year's opportunity NOW to get your goods at below "low prices."
